

Elastico Tequila is the cleanest and smoothest 100-proof tequila in the world because of additional steps implemented by Dano Veal. At [Elastico Tequila](#) we're all about you and the environment. Which is why we launched Elastico Tequila Home, offering comfort and wellness products for the home; made with our blue agave of course. With the residual materials from the tequila process, Veal made very high-quality home decor products like all-natural candles, air fresheners, and natural disinfectant sprays. This greatly reduces the waste from distillation.
